## Executive Summary

On March 29, 2017 the committee members, staff and special guests of the Coordinating Committee of Violence Against Women (CCVAW) met at the Shared Services Centre in the Bayview Mall in Sarnia for a highly interactive workshop facilitated by Bryan Boyle. The purpose of the session was to initiate the formulation of a strategic plan based on measurable objectives and goals to ensure that CCVAW remains strong and viable.

Participants were asked, “What are the first one or two words that come to your mind when you hear “Sarnia Lambton Coordinating Committee on Violence Against Women”? Their thoughts were focused around collaboration, operational strengths, general attributes, services offered and name.

The participants’ perspectives about the current status of CCVAW were generally positive. The participants’ scores displayed a concentrated positive range on the bar graph that was created.

Participants established their core values or principles that guide the behaviour at CCVAW. The values that were identified include: collaboration, commitment, knowledge, fairness, advocacy, relationships and professionalism.

Participants were asked, “How will we know that we “got it right” with a successful strategic plan?” They gave several examples within the community, within the committee as well as within member organizations.

Participants identified and prioritized some merits or positives as well as negatives or challenges that exist. Merits listed from highest level of priority include: coordination and organization, growth and sustainability, stable funding, diverse membership as well as commitment.

The weaknesses or challenges ranked from greatest need for action include: capacity of organization, community comprehension, collaboration and capacity to contribute, external support, capacity of volunteers as well as potential conflict.

Participants reflected on the implications or consequences, if any, of maintaining current approaches or “business as usual” for CCVAW without any proactive changes. Several implications were identified within the community, within the committee as well as within member organizations.

Participants suggested actions that will have a positive impact on the future of CCVAW. These actions were designed to build on the merits, reduce or eliminate the challenges and avoid the consequences of inaction, while keeping the desired outcomes in mind. These actions were clustered and organized into key areas of focus.

The participants prioritized the key areas of focus that had been identified. Highlights of the areas of focus listed from their highest to lowest priority are:

- 5<sup>th</sup>: Engage Community
- 6<sup>th</sup>: Increase Outreach
- 7<sup>th</sup>: Re-invigorate Committee Support
- 8<sup>th</sup>: Diversify Funding

More discussion time was allocated to the three highest ranking areas of focus. Participants were encouraged to use a specific format as a guideline for their discussions. Participants developed these potential work plans to help encourage their implementation.

Participants shared their personal commitment to specific actions that would contribute to a positive outcome to this planning process.

The workshop was a productive event, where the participants were very engaged. Through their valued input, the committee members and staff present took an important step in their quest to ensure a strong and viable future for the Sarnia Lambton Coordinating Committee on Violence Against Women.
